

Providing Premier Processing & ATMs Since 1994

# Triton RL2000 Series ATM

Triton's low-cost RL2000 packs tons of features into a compact walk-up design, making it ideal for both high- and low-traffic locations.

With the widest range of dispensing mechanisms ever offered, it's the ideal choice for retail locations, as well as for bank or credit union off-premise locations.

An innovative configuration—including an embedded PC-based platform, Microsoft Windows CE5.0 operating system with Triton's X2 technology—makes the RL2000 as reliable as it is convenient and the CE5.0 platform provides expandability to meet future compliance and application needs.

The RL2000's unique design allows for hassle-free servicing, saving time and money while eliminating the need for expensive upgrades. All this and more make the RL2000 one of the most feature-driven retail ATM ever—all while maintaining the low cost of ownership.
